2. "Shahenshah, I sing at your command" _____

3. "There is someone who sings far better than I do" _____

4. "Why can't you sing like him, Ustadji?" _____

Q6. Read the given passage carefully and answer the following questions:

Basketball

Which is the most popular sport in the world? Most people would probably say soccer, because of the family of the millions who play it and even the larger number who watch it on television. There are some, however, who say the correct answer is basketball- not because of its TV audience, which is certainly smaller than that for soccer, but because the number of people who regularly play the game might be higher.

Basketball has existed for less time than some of the world's other major sports. It was invented in the early 1890s by a Canadian, James Naismith, working at a college in the state of Massachusetts in the United States. Wanting to create a game that could be played indoors during the long winters but would also be active enough to keep people in shape, he had the idea of two teams of players trying to throw a ball into a basket that was above their heads.

Early basketball looked different from the game today: for example, the basket didn't have a hole at the bottom, so every time a player threw the ball in, someone had to go up to get it out again! Another difference is dribbling, which is when a player in modern basketball bounces the ball off the floor while moving across the court: it didn't exist in early basketball because the balls didn't bounce well enough. One thing that hasn't changed, though, is the height of the baskets: James Naismith put the first one 10 feet off the floor, and that's where they've stayed.

Q. Here are some simple definitions for words that appear in the text. Find the words from the passage and fill in the blanks:

- a. A p_____ (adjective) thing, place or activity is one that many people like.
- b. A c_____ (noun) is an area marked with lines where some sports (e.g. basketball or tennis) are played.
- c. An a_____e (noun) is a group of people who watch or listen to something (e.g. a movie or a sports game).
- d. B_____ (verb): to hit the surface of something and then move away (e.g. a ball moving through the air, hitting the ground, then moving through the air again).
- e. _____m (noun): a group of people who play a sport or a game against another group.
- f. ____d_____s (adverb): inside a building (e.g. a house).
